

Lucy Fallen

for . . .

I would like to make your time at Pembroke as **stress free** and **enjoyable** as possible.

From **experience**, I know how important it is to be **healthy** at Cambridge!

So, I will always be available to offer **advice** or just a friendly face to talk to, and of course, **tea and chocolate**.

Sex is fun but you need to be safe so let me help you with as little embarrassment as possible!

I want to make sure that I **organise** college families so it is not a chore for you but an enjoyable experience.

I also think **Freshers' Week** should be a jolly time for all the years and not just Freshers by organising events which apply to **everyone!**
