

Alexandra Piletska

Women's Officer

Manifesto

- There will always be a place to go with any issues or problems including, but not limited to, relationship problems, sexual health, pregnancy, discrimination and body image issues
 - I will make sure all women's issues are heard, including the smallest concerns or ideas
 - My pidge will always be well stocked with condoms and pregnancy tests which will be easily accessible to all without judgment or stigma
 - From time to time I will organise events and evenings ranging from film nights to dinners where women can spend time with one another in a safe and welcoming environment
-
- I will endeavour to be a mine of knowledge on any issue that may concern or interest the women of Pembroke; if I don't know something, I will do my research and find out
 - I will always be friendly and accessible at any time or day
 - Although the focus will naturally fall on women, men will not be excluded from discussion and involvement and are welcome to have as much input as desired

Nominated by: Hannah Brooks

Seconded by: Richard Saunders
