for

## VICE-PRESIDENT

### Why me?

- I have been the **Internationals Officer** on the JPC in 2009-2010 and I am experienced with the way the JPC operates
- I have been a **voting member of the CUSU councils** in 2008-2009 because of my position as **Faculty Board Rep** for the Arch&Anth department and I learnt a lot about how CUSU functions
- I am an **active and keen member of the Pembroke community**: I play college sports (basketball and football), I am involved in college events and I have done my best at fulfilling my role as Internationals Officer by organizing welfare events for internationals and non-internationals.
- I am **organized, responsible and rigorous** with the commitments I take on board
- I am **friendly** and very **easy to talk to**

### What would I do as Vice- President?

- Push **members of the JPC** to be **more active**: I believe that everyone, in the committee and in the welfare subcommittee, should report at our weekly meetings on what have they been up to in the previous week as part of the JPC - this will be available for everyone to look at in the minutes of the meeting displayed on the board outside the JP
- Make sure **Pembroke is represented at CUSU councils on a regular basis** and that the minutes of CUSU councils are posted on the board: as VP, I would commit myself to attending the councils and representing Pembroke at the University level
- **Work constructively** with College: I will represent and defend students' perspective and needs firmly, while also **dedicating time and effort to negotiation** with the institutions whenever problems arise
- **Deliver quality**: I am efficient, energetic and committed to the role, and I believe I would do a very good job.
